Subject: FW: Request for extension

Greetings,

I'm passing this along to Enrique and Laura to confirm that this is what was agreed to in the conference call you had with Dr. TerMaath. Please let me know if anything needs correcting.

Loren

Subject: FW: Request for extension

Loren,

Just left you a v-mail, and would like to talk with you to help ensure we're on the same page --

- The AF has de facto granted EPA's 60-day extension request, and this an official notice if needed (your email below, 25 April);
- On 25 May, Dr. T, Enrique, and Laura conducted a ST012 telecon;
- On 30 May, Carolyn delivered an EPA/ADEQ letter on Biodegradation Model for EBR at ST012;
- AF working on the Revised Draft Final Work Plan Addendum #2. Our projected delivery date to BCT is 30 June;
- The Revised Draft Final Work Plan Addendum #2 will follow the process specified in the FFA's Section 7.2(a).

Please feel free to give me a call,

//SIGNED//

Subject: [Non-DoD Source] Request for extension

Hi Phil,

Pursuant to our conversation, I am hereby requesting an extension in approving the Air Force Enhanced Bioremediation Work-plan for implementing EBR at former Williams Air Force Base, Site ST012. The Regulatory Agencies and the Air Force have had successful meetings and discussions regarding respective issues regarding implementation of EBR. In the spirit of continuing good faith discussions, pursuant to the Federal Facilities Agreement, Section 9.2(g), we request an extension of 60 days to continue discussions in order to resolve our differences outside of the formal dispute process.

Regards,

Loren
